ATTACKS LEGISLATURE

J. E. LONG EXPRESSES HIMSELF OPENLY.

Declaring That It Has Bankrupted State and Cities and Has Started on Counties

We bankrupted the State we bankrupted the cities of Alabama and we have started out to bankrupt the counties' declared Representative J. E. Long with emphasis as he spoke of the work of the Legislature.

Mr. Long said the decision upon in the lobby of the in charge Hotel. He spoke without fear and it might be said with bitterness of the record made by the Legislature as follows:

Mr. Long said the decision was the result of much thought in the house. He is known to be close to the Governor and a right wing man. He was elected on an independent and probably no man in either house would dare to say the present ruler is his friend. But he is equal to the task of legislation and is opposed to the prohibition legislation of the present session. He

record of the Legislature was received no stronger criticism than that given by Mr. Long.

We found a full treasury. We took the money away and left the state treasury empty. We bankrupted the cities by taking away their houses and saloons money and the cities cannot pay their debts. But the counties had money so we went after that. We increased the fees of county of fees and we gave county commissioners the right to spend the money in new building school houses. Oh we made a record that will be heard of in years to come.

Mr. Long is a strong opponent of constitutional prohibition and says that his country will vote uniformly against the amendment.

On account of not having the services of material the only progress now being made on the new building is the removing and fitting of the huge steel beams to be used on the front of the building. The workmen say the equipment had been received. No one doesn't know when they will start to work again as they are out of all material and the last machine has never arrived.

In A. T. Wallace is to leave to-morrow for Atlanta to visit her daughter Mrs. Young.

HAMMER HALL BURNS NEARLY 200 DROWNED

FIRE THOUGHT TO BE OF INCENDIARY ORIGIN.

Building Destroyed Was Temporary Home of Methodist Woman's College

Supposedly of incendiary origin fire at one o'clock last night completely destroyed Hammer Hall, the temporary home of the Methodist Woman's College which was to open its halls for the first time on September 30. The fire was discovered by a pedestrian on his way home, but the fire apparatus reached the scene too late for effective work.

Five carloads of furniture had just been placed in the building valued at approximately \$2,000 and all of President Martin's furniture and private library had been stored in the south east wing. None of the new equipment had been received. No insurance was carried on the property of the college, although the trustees of the building carried insurance on the building itself to a small extent.

When first discovered the fire was confined to one room on the

IN THE SINKING OF EXCURSION STEAMER.

Women and Children Leap From Their Beds to Watery Graves.

Montevideo, Aug. 24.—In a driving rain storm, about six o'clock this morning, the Argentine excursion steamer Columbia and the North German-Lloyd steamer Schlesien collided at the entrance of Montevideo harbor. The Columba was entering port and the Schlesien was outward bound for Bremen. The Columba's bow was crushed in and she sank almost immediately. Between 150 and 200 persons were killed or drowned.

The Columba carried about 200 passengers and a crew of forty-eight men. Most of the passengers were asleep and panic followed the crash. Almost immediately small boats put out to the sinking steamer, but the work of rescue was rendered very difficult by the high sea. About seventy persons were brought ashore. Most of the dead are women and children. A majority of the survivors are men. The Columba was carrying excursionists from Buenos Ayres to a festival at Montevideo and the disaster has caused the keenest emotion. The Uruguayan government, in consequence, has postponed the fete arranged for the celebration of the inauguration of the president.

The bankrupt stock of The Hammond Drug Co. was sold today at 12 o'clock. It was bought by the Lamar, Reiley and Taylor Drug Co. of Macon, Ga., at 65 cents on the dollar. It is not known yet whether the stock will be opened up at the same place or not.

The many friends of Mr. and Mrs. A. G. Grant of Headland will be glad to learn that the condition of their little child who has been so seriously ill, is some better at present.

Mr. M. L. Hannahan and family of Montgomery passed through Dothan yesterday en route to their home after a week's stay in Panama City. Mr. Hannahan is vice president of the Alabama Chemical Co. of Montgomery which has a branch office here.

M. Cherry and G. A. Ward have returned from St. Louis and Chicago. While away, they took a spin down through Oklahoma, visiting some of the important cities of that section.

W. D. Gavins and wife passed through the city yesterday en route to their home in Jacksonville.

Mrs. Barnett of Georgia, who has been visiting the family of Mr. A. V. Malone here, returned to her home today.

Miss Ware of Wrightsville, Ga., returned to her home yesterday accompanied by Misses Rosemary and Louise Lee.

TO BUILD GOOD ROADS

ORDER IS PASSED BY THE COMMISSIONERS.

One Road From North Line to Cottonwood; Other From Columbus to Wicksburg

At a meeting of the county commissioners yesterday afternoon, they passed an order to build a road from Columbus to Wicksburg, and from the north line of the county, between here and Headland, south through Dothan and on to Cottonwood.

This is a sort of a compromise, and considered a good one, between the first idea of building one from here to Columbus. It was found that many people were interested in good roads, and this was considered the best and fairest thing to do. This will put a good road into four different sections of the county sections, too, that are thickly populated, and will put four good roads coming into Dothan the natural market for this section.

This ought, and will, satisfy the majority of the taxpayers of Houston county.

Mrs. W. W. Logan, who has been spending some time with her sister Mrs. S. O. Purdie, returned to her home in Brundidge today.

BOATS FOR SALE.

Owing to my misfortune in getting my mill burnt, with but little insurance, and needing money to help me to rebuild, I will sell my Launch and Houseboat at Panama City at a sacrifice price. There is nothing finer of the kind anywhere and you should see them if you contemplate an outing of this kind. W. C. Fisher.

Moonlight Bathing Music, Turtle Hunt and a ride on Beautiful St. Andrews Bay on the STEAMSHIP MANTEO

A chance to catch sea turtles, an opportunity to bathe in the moonlight silver waters of the Mexican Gulf and a ride in the moon light with music on the beautiful waters of old St. Andrews Bay on the Steamship Manteo August thirty-first. The finest and most interesting excursion of all the season. No seasickness. The Manteo will not go out on the Gulf when the passengers might become seasick. The ride in the bay will be up North Bay around East Bay and over to the Pass, where the excursionists will have a chance to view the wonders of the Harvest Moon turning the breakers of the Mexican Gulf into molten silver. Returning the Manteo will arrange to land passengers on the Gulf Beach where the moonlight will afford an excellent opportunity to search for turtle eggs and turtles and where the Act allows us of bathing in transparent silvery waters of a glorious moon light night may be enjoyed. The Manteo will sail from the Railway Dock at Panama City at 8:00 o'clock p.m. Tuesday the 31st and from St. Andrews (Ware's Wharf) at 8:30. Returning 11 p.m. Parties from all other points are cordially invited to join the excursion at Panama City or St Andrews.

THE SEVEN WONDERS OF THE WORLD

The Seven Wonders of the World are not what they once were. In fact they are no longer much of an attraction as wonders but answered mighty well for the people of that time, because the people of that time were not hard to excite in the wonder line.

The Seven Wonders of the World have been the occasion of some dispute but many of the ancient diggers and writers have decided that they are as follows:

Pharos or island off Alexandria in Egypt, chiefly noted for a lighthouse which was connected by Alexander by a fill nearly a mile long which is not one two, three beside Flagg's fort at Key West.

Hanging Gardens of Babylon that tradition says old King Nebuchadnezzar built to satisfy a whim of his wife who was used to wild scenes. These gardens that so much were built were about, were an acre or so of ground put up on trellises and spread out roof garden fashion except that earth was used for the top held up by sticks or pillows, 150 or 300 feet high just according to who is writing about them. Nothing much to the Hanging Garden, after seeing Madison Square Garden the handwork of one Stanford White who had a gentle way with the ladies, to his everlasting ruin.

The Colossus Gold and Ivory Statue of Zeus said Zeus never having existed except in the imaginations of the ancient Greeks was one of the Wonders. This was erected at Olympia where our Olympian games had their origin, and where about 3,000 other statues of other people and things were erected by an artistic people who seemed to have nothing else to do but build statues. The thing was built of gold and ivory, but the place where it once stood is now all but patch and just who got the gold and ivory, the writers never said. The statue was but a little over 100 feet high and had but little advantage of Vulcan Birmingham's Iron Man, which she couldn't pay the freight on but one way.

Then comes the Temple of Diana, at Ephesus built by public taxation, and which Phiney says was 200 years in building, but just how he knew is more than we can say it being built about 300 years B C. This temple was 425 feet long by 225 wide, and was supported by about 127 Persian marble columns 60 feet high which is nothing to some of the government's buildings. The people of that time had a mania for building Diana temples for eight were built on the same site. The seventh was set on fire by a crank who didn't want to see the volunteer fire department run as many do, but who wanted to get his name in the papers, and go down in history as being the man who burned down Diana temple. He got a notice alright and when they put him in the "sweater" or give him the "third degree" he owned up to doing the dirty work for no other cause but for the notoriety. He wanted to celebrate the birth of Alexander, too which event came off the same

night.

The Colossus of Rhodes is another wonder but is nothing more nor less than a 105 foot statue of Apollo, another chief hero of Greek mythology that wouldn't be tolerated a day in Dothan if he were among us. The thing was made of bronze and was also called the Sun god because they might have kept him polished up like a door plate. This took was built about 300 B C but 75 years later an earthquake uprooted it.

Then comes the Pyramids some of which are now standing to prove they are real but many of them have fallen or been torn down to get the rocks to burn lime by people who didn't care so much for the Pharaoh boys as the Egyptians once did. There were some 75 of them scattered about this side of the river Nile opposite Cairo covering some 5 miles. The Pharaoh boys it might be said made their mark in the world.

This brings us to Mausoleum he fourth another wonder built 300 years B C by Mausolus, who was also his sister. He was a Satrap and King. Such beauty it was till all the rich experience is as follows as Prof. Toliver who die now are not buried there. Still a leap to a sad conclusion in a grave or tomb but it is a Museum. This stood till from two tritely ballads which the 12th century when it decayed heard

and fell in and the Turks knock off it off the earth and the spot may be a high ridge of conduct wheels it is lost till men in spite of many villains. It

by the name of Newton come along in spite of many villains but we need parts of it. We take his word not follow him into despair of th

that it is the original resting place

of Minosaurus who was planted

singing his sin upon the wife's

about 2250 years ago.

As we said at the outset all these wonders were created back during the first 300 or 400 years B C and can be reached in a day or so's travel after you get near the first one.

We are away ahead of Atlanta in some respects. For instance we haven't 8,000 homes in Dothan with out sanitary connection but we have many that need it. There are some houses with sanitary connection surrounded by houses with open closets. This situation is bad for the neighborhood and for the man who has spent his money for improvements that do no good. The old law that the town threatens the property owner with is as good as no law at all when it comes to making people connect to the sanitary system which cost the town thousands of dollars.

The candidates are getting busy now. You can already see them sending their men off and giving them a talk. The soda water and cigar sales are also increasing.

Mr. Bryan has been hundred times till he has decided to run some in Texas.

THE MODERN HUSBAND

In support of his contention that the modern husband looks large up married life as a joke and is lacking in humor and virtue, Prof. Starr of Chicago says

The popular songs of the day show with what disrespect many husbands regard their home ties. Just think of a lot of husbands laughing at these two songs, "I Love My Wife but Oh, You Kill" and "My Wife's Gone to the Country Home". This shows the way the modern husband regards his wife's vacation.

Some husbands do so regard it

Others will laugh in the national

love of a joke, even at such low

stake upon matrimony. But the

great majority of husbands re

gards it with indifference.

Some of those who have a cent

are written to "The World" to tell

Why So Few Marriages? have

fallen of American young men

now a disengaging. They don't

lose draw the dark picture from

the life but fear me a hard death.

He was a Satrap and King. Such

sands of dollars.

The automobile that is built for racing purposes like the race horse has no real value to the public. It is the machine or horse that can go every day and maintain a good speed and carry a load safely that will win out in the end.

It is reported that there is an epidemic of pellagra in Butler county. We don't know what pel

lagra is, except what the doc tors say about it. They say, or one of them did, that it was a disease caused by eating corn meal that is not fresh or made from spoiled corn. This shouldn't affect the people of Butler where the folks ought to raise plenty of corn and therefore have plenty of good meat. We don't know whether the grocer here sends away for his meat or whether he buys it at home but we feel that plenty of good meat can be had in Butler county. The name pellagra doesn't appear in the books we keep lying around to tell the story of farming to the office and just as soon as Webster hears of the disease we hope he will insert the name in the back of the book here we can all look it up.

southeast corner of the second floor of the two-story brick building, but spreading with remarkable rapidity, the flames made the second floor a roaring furnace by the time the firemen reached the scene. The fresh breeze which was blowing from the southeast, aided by the fact that the painters and decorators had just completed the finishing touches, fanned the flames, and added to the theory that the fire was incendiary.

Spreading to the ground floor, the fire was completely beyond the control of the firemen, and making the six streams of water poured into the structure practically useless. Falling bricks and heavy roof trusses added to the peril of the firemen fighting from the southeast door and the main entrance.
